Clean Up Portland Harbor

Letter

Dr. Ms. McCarthy, The proposed cleanup of the Portland Harbor is a big win for industry and a bad deal for the public. EPA's cleanup proposal tackles just 8% of a site area that is 100% toxic. A more aggressive plan is needed to prevent even more harm to human health and the environment. On behalf of all people who rely on the river for food, recreation, employment and culture, I urge the EPA to implement a plan that: Moves quickly and sustainably reduces contaminants causing harm to Willamette and Columbia River resources. Includes ongoing monitoring and cleanup upriver and downriver from the site. Contributes to healthy fish that are safe to eat for all people. Holds polluters accountable for creating a safer Portland Harbor. These elements get us closer to the plan

our communities deserve. And I deserve a clean, safe Portland Harbor. *Submitted during the comment period between June 9, 2016 to August 8, 2016 regarding the EPA's Portland Harbor Feasibility Study and Proposed Plan.

My name is Karissa Contreras I have lived in Portland my whole life. I have never been able to swim or fish or enjoy the river. I feel like it's a huge shame for a city that is trying to be enviornmentally friendly and we are letting toxic water just sit there in the middle of our beautiful city. I hope something can be done to start efforts to clean the water and make it safe to swim in
